

Panel Risk Assessments: Corrective Actions

Corrective Actions

The TraQ-it Certificate Templates holds the Word Template for Risk Assessment Corrective Actions under the Guardian Documentation Library

Users can download the template and complete a new risk assessment should any significant changes or have occurred that would change the panel RAG status.

Please ensure the original and new QR code within the label are referenced on your new risk assessment.

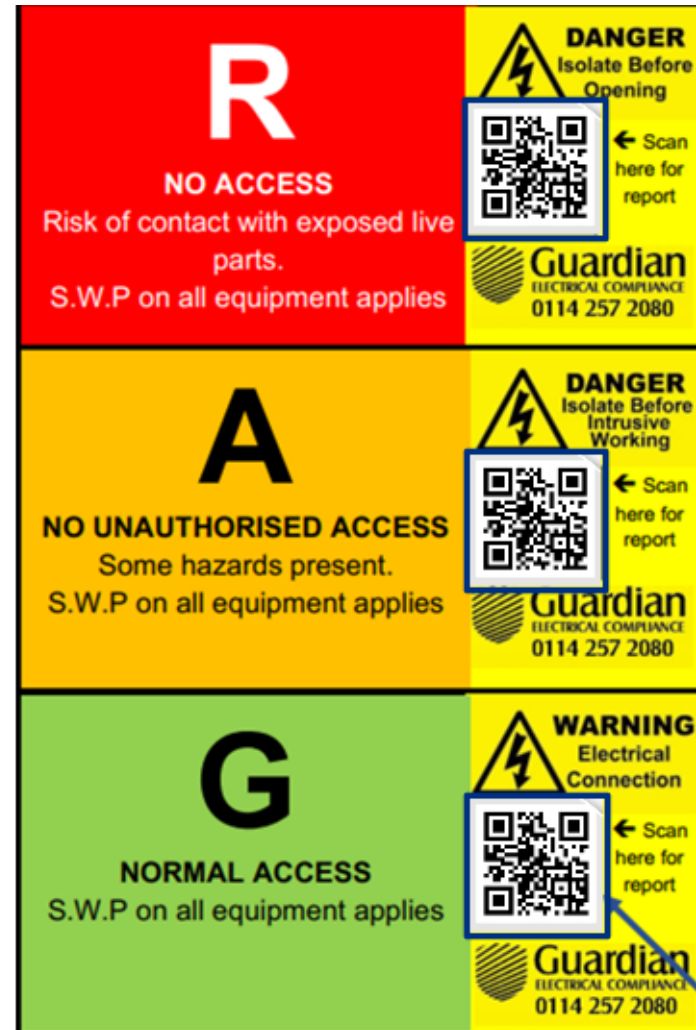

PRA Template Location

Replacing Panel Labels

New or replacement PRA Labels and QR codes can be requested by emailing materials@guardianelectrical.co.uk

The existing blue QR code CP number and PRA label should be carefully removed and noted when replacing labels as the new PRA's will need to be linked to the new QR code.

Submitting New Risk Assessments

Please submit all new PRA Templates to:

TraQ-it@guardianelectrical.co.uk

Our team will link the new risk assessment to the new QR code referenced on your PRA.

Note: The original report will still be available in TraQ-it as your audit trail.

Sites requiring a Guardian Inspection team to re-assess the panels should please contact:

pra-team@guardianelectrical.co.uk
